

Saul & Ruby Cruz
445 E. Berry Rd.
Barrington, IL 60010

Three issues – we live directly across the street from the library (NW Hwy and Beroy Rd). Traffic already is difficult for seniors and children to get across the Hwy to get to the library. If this is true that you're going to have these many runs going through Barrington, drivers get adjitated with having to stop for these trains. They get aggressive and start finding ways to get around it. When it does clear they tend to speed to hurry up and get around it. People making up for lost time. The fire and polices stations sit on the East side of B. The majority of B, the high school, and the middle school are on the other side of those tracks. Paramedics delivering patients to hospitals will be impacted.

Noise is another concern. But it is mostly the emergency vehicles – how are they going to get across?

How is it going to impact wildlife? How are they going to respect the wildlife?
